NORMAL SCHOOL STANDARDS.

BY PROFESSOR WILLIAM M. STEWART.

Keen competition in all professions and vocations forces specialization and close division of labor, it is not long singe school teaching became a profession. The normal school, in fact, is a recent institution, yet it has made narvelous strates. There are in the United States today probably more than 39 pormal schools with over 100,000 students. Now the professional training of tembers is regarded as essential as that of doctors and law-yers. The admentional and professional standard of the average normal school in the United States domards a high in the United States domards a high

PLECTION RETURNS.

As the official election returns come to be compiled and compared the heavy Domocrastic gains in the eastern states appear more and more significant. Taking the vote on governor in these states, and comparing it with the vote on president in 1896, the remarkable decline in the Republican strength in these states is constantly apparent. The following are the figures, given in

Carl Hoffman, the brewer, will this week, for the third time, undertake the feat accomplished by Springer, that of carrying a 100-pound keg of beer from Fisher's browery, west of the city, to Wagener's, in Emigration canyor Hoffman, it will be remembered, has Hofman, it will be remembered, has failed in the effort heretofere, but through practice, is now said to be in a condition warranting success. In fact, it is alleged that he performed the feat Friday night has in one hour and fifty-one minutes, which is better, by thirty seconds, than the time made by the forms would be improved if it had another coat of paint.

Springer, a co-laborer, who lost heavily on Hoffman's first attiempt, but who won considerably when the same man falled in his second endeavor, is betting £56 that Hoffman cannot make the trip in two hours. He believes Hoffman will give out before reaching the Salt Lake brewery hill.

Hoffman, on the other hand, is confident of success. He asserts that in his first trial fallure was due to too much port wine. This time refreshment will be confined to water.

The time has not been definitely fixed, but in all probability, the "procession" will leave Fisher's at 3 p. m. Thursday, will leave Fisher's at 3 p. m. NEBRASKA DIVISION MAY IN-CLUDE JULESBURG BRANCH.

General Manager Dickinson Says Transact a General Banking Business Denver Reports Are Premature-Receiverships Not Yet Settled Up and Rearrangements Are Undetermined-Orders For Locomotives.

The Omnha Rec takes issue with the Denver papers relative to the rear-rangement of the operating de-partment of the Union Pacific and quotes General Manager Dickinson as saying that the Julesburg division way not be attached to the Colorado division when the branch is finally in control of the big system. The matter has not yet been decided. Mr. Dickinson is quoted as saying: "It is very natural that we should be considering to what division we will attach the Julezburg branch when we get it, whether it will be made a part of the Nebraska division, the Colorado division or the Kansass division, or whether we shall rearrange the present divisions. The Kansass division, or whether we shall rearrange the present divisions. The Union Pacific will take in the Julesburg branch I do not know. We control it now. It was thought that we would get hold of it on Cet. I, but that time passed by without our actually acquiring it. Settling up receivership is a big undertaking and takes a long time; for example, the Union Pacific receivership cases are not all disposed of yet."

Orders.

Philadelphia, Dec. 18.—The Baldwin locomotive works has within the last few days received orders for fifty-six locemotives, of which sixteen are for the imperial railway of china, making the second order received from that country within ten months. A contract with the Reading Bailway company calls for twenty-five freight engines and five switching engines of the heaviest type ever operated on the system. They are to be specially adapted for use in the subway. The Chicago & Western has also ordered ten large freight engines, while numerous small orders have been received from railroads all over the country. In addition to working day and night, it has recently been found necessary to increase the force of men at the works.
